

**COUNT ON THE RELIABILITY OF  
INTEGRA ENCLOSURES  
FROM THE GREEN TO THE FAIRWAY.**

## POLYCARBONATE ENCLOSURE SOLUTIONS.

*Integra polycarbonate enclosures offer non-corrosive protection in virtually any environment, strength and durability, as well as the ability to be easily customized for virtually any application.*

**Size range:** 6" x 6" x 4" to 18" x 16" x 10".

What's the most reliable piece of equipment on the course? Whatever is inside an Integra Enclosure. From controls to remote monitoring, Integra polycarbonate enclosures provide durable protection from the elements. Whether it's the high NEMA/IP rating for protection against dust and moisture, or the durable impact resistance of this rugged boxes, Integra is focused on producing polycarbonate enclosures that withstand the elements from the fare way to the green.

Every application and installation is unique. That's why Integra enclosures offer a variety of mounting and customization provisions. Whether DIN rail for electronic components/connectors, or back panels, components easily and securely install. These field-mountable enclosures are completely corrosion resistant. And when it comes to customization, Integra offers custom sizes and viewing windows, plus screen printing or holes/cutouts. We provide the ideal design for each client.

Rest assured that when you select Integra, you are getting unsurpassed quality. We rigorously test our products to meet international standards for performance (like IP and NEMA), chemical resistance, impact ratings, UV properties and more. We then certify them to UL/cUL standards, as well as RoHS and Atex.

The next time you need an enclosure, from set your course to Integra. Call 440.269.4966 or visit [integraenclosures.com](http://integraenclosures.com).

### THE ADVANTAGES OF INTEGRA POLYCARBONATE ENCLOSURES

Applications that require the performance of a NEMA 12/4X/6P, UL enclosure call for strengths of Integra:

- Superior impact resistance with engineered thermoplastic enclosures
- Thermoplastics are non-corrosive, non-conductive and lighter in comparison to steel
- Polycarbonate enclosures have better UV resistance than fiberglass.
- Easy installation thermoplastic clear covers available
- 100% non-metallic hinge design
- Integra thermoplastic products offer many mounting options molded right into the box
- UL / c-UL Listed
- NEMA 4X, 6P, 12, 13 & Marine Use
- CE & IP 66/68 Protection
- RoHS
- Atex

#### ABOUT INTEGRA ENCLOSURES

*Integra manufactures and markets thermoplastic enclosures designed for use in construction, water treatment, utility, telecommunication, instrumentation, remote monitoring, energy and other applications requiring enclosures that are non-corrosive, non-conductive, easy to install/modify and competitively priced.*
